REFERENCES

SUMMARY

Full Stack Web Developer with 1.5+ years of experience building end-to-end web applications using React, TypeScript, Express.js, and PostgreSQL. Skilled in both frontend and backend development, including API design, database management, and scalable system architecture. Proven ability to deliver production-ready solutions with clean code, strong UI/UX, and efficient backend logic.

EDUCATION

Bachelor of Computer Applications (BCA)

Madan Bhandari Memorial College / Kathmandu / Present
BCA

+2

Manakamana Higher Secondary School / Makalbari (Science) / Kathmandu

WORK EXPERIENCE

React Frontend Developer (Contract)

Brisktek Solution / Vancouver / December, 2025 - Present

- Built a Canada-based Strata / Property Management System for managing multiple apartment buildings under a single organization.
- Implemented building-wise amenities, resident profiles, and vehicle record management and amenity/facility booking .
- Built an interactive drag-and-drop task management interface for staff workflows.
- System is hosted and live in test phase (admin-only access).

Junior Frontend Developer

Center of Research and Development Pvt. Ltd / Basundhara, Ktm / December, 2024 - January, 2026

- Developed and maintained production-level React applications using JavaScript and TypeScript.
- Built reusable, responsive UI components following clean code and component-based architecture.
- Integrated frontend with REST APIs, handling async data, loading states, and error handling.
- Managed application state using React Hooks and Context API.
- Collaborated with UI/UX designers and backend developers to deliver features on time.
- Actively participated in debugging, code reviews, and feature enhancements.

Frontend Developer Intern
Info Developers Pvt. Ltd / Sanepa-2, Lalitpur / July, 2024 - October, 2024

- Developed and maintained responsive web applications using React.js, with styling done via HTML, CSS, JavaScript, and Tailwind CSS for consistent UI/UX.
- Collaborated in code reviews and followed best practices to ensure clean, maintainable, and scalable frontend code.

TRAINING/CERTIFICATIONS

Frontend Developer Internship (React)
Info Developers Pvt. Ltd
21st July - 20th October

PROJECTS INVOLVED

Key Projects (Company Projects)
Center of Research and Development Pvt. Ltd

Skin Clinic Management System

- Developed a Skin Clinic Management System supporting services ranging from basic dermatology treatments to advanced procedures.
- Implemented appointment booking, patient follow-ups, treatment records, and laboratory workflow modules.
- Designed reusable React components and managed application state using React Hooks and Context API.

Remittance Management System (Multi-Tenant)

- Built frontend features for transaction processing and tracking with tenant-specific data isolation.
- Implemented UI logic respecting tenant-based roles and permissions, ensuring secure access control.
- Collaborated closely with backend developers to ensure correct tenant context handling across modules.

Queue Management & Waiting Time Prediction System (College Project)
Tech stack: React, Express.js, PostgreSQL

- Built a full-featured clinic queue and appointment system with real-time queue tracking, wait-time estimation, and appointment scheduling.
- Implemented predictive wait-time alerts and automatic queue position updates.
- Designed role-based access for staff (reception, doctors, admins) to manage queues, appointments, and reports.
- Developed RESTful APIs with Express.js and PostgreSQL.
